2023 REPORT
TO MEMBERS

CELEBRATING

150

YEARS

150
YEARS

Foresters
Financial

years later, the best is yet to come.

Seeing how far our members have come since our organisation was founded is inspiring. Even though volunteer efforts and causes have changed from decade to decade, the spirit of giving back has always stayed the same.

I couldn't be prouder of the community work our members have supported over the years. We're empowering more members with more granting opportunities than ever before.

There have always been reasons to celebrate. Today, however, with over two million members across Canada, the US and the UK, the good work led by our membership is unlike anything we've ever accomplished. At our 150th anniversary, we've got a lot to celebrate!

RICHARD HENNICK
International Fraternal President

As Foresters Financial approaches its 150th year of existence, our employees and Board of Directors are truly honoured and humbled to be a part of our members' provision of security for their loved ones while building financial peace of mind for their years to come.

What truly sets this unique and inspiring organisation apart is how our members continue to come together to make a difference. Incredible passion, with the assistance of member benefits, continues to impact families, neighbourhoods and communities for good in Canada, the US and the UK. That is something to be extremely proud of.

Let's celebrate this remarkable anniversary and set our sights on an even better future together!

DANIEL FORTIN
Chair of the Board

Since joining Foresters in 2017, I've had the privilege of taking part in the positive impact our members drive in their communities. Now, in our 150th year, and as our President and CEO, I have never been more energised to support our membership giving back to the people and places they care about most.

Our original vision of creating a more caring and inclusive future in 1874 has endured and thrived through the 21st century. It's still at the heart of everything we do as an organisation and what our members are doing across Canada, the US and the UK.

This milestone year, I look forward to building our membership, protecting their families and celebrating how far we've all come.

Annualized weighted sales are comprised of 100% of regular premiums/deposits and 10% of single premiums/deposits and annuities. Annualized weighted sales are also expressed on a constant currency basis, which is a measure of sales that provides greater comparability across reporting periods by excluding the impact of exchange rate fluctuations from the translation of functional currencies to the Canadian dollar. There is no directly comparable IFRS measure.

Canada
Total Annualized Weighted Sales

CAD million

United Kingdom
Total Annualized Weighted Sales

Surplus

\$2.0
billion

A strong surplus position first and foremost gives Foresters Financial the ability to withstand economic and business volatility, and it allows us to invest in the growth of our business through increased sales and acquisition activities. Also, a portion of earnings on surplus is used to fund member benefits and community investments in support of Foresters purpose.

Best assigned Forester's subsidiary, Foresters Life Insurance Company an "A" (Excellent) Financial Strength Rating. In assigning the ratings for The Independent Order of Foresters (Foresters Financial) and its subsidiary Foresters Life Insurance Company on August 17, 2023, A.M. Sales

United States
Total Annualized Weighted Sales
(USD millions)

Total US annualized weighted sales were \$61.8 million, a 28.7% decrease over prior year due to inflationary pressures on the middle market household and rising mortgage interest rates. This resulted in lower sales of Term products partially offset by stronger sales of Whole Life products.

Canada
Total Annualized Weighted Sales
(CAD millions)

Total Canada annualized weighted sales were \$36.8 million, a 23.7% decrease over prior year, driven by lower Simplified Issue Non-Medical and Critical Illness product sales partially offset by increased sales of Fully Underwritten Permanent products.

United Kingdom
Total Annualized Weighted Sales
(GBP millions)

Total UK annualized weighted sales were £101.2 million, a 1.7% increase over prior year driven by strong sales in regular junior and pension unit linked investments, including Child Trust Funds reinvestments, but sales growth was impacted by pressure on consumer finances.

Key results

Total Premiums
(CAD millions)

Total gross life insurance premiums were nearly \$1.5 billion, a 14.8% increase over prior year driven by a favorable sales mix.

Certificates and Contracts in Force
(thousands)

At December 31, 2023, Foresters Financial had 2.56 million certificates and contracts in force. The increase in 2020 was due to the acquisition of the Halifax Child Trust Funds in the UK and the resulting decrease in the last couple of years was due to maturing Child Trust Funds.

Total Comprehensive Income²
(CAD millions)

This was Foresters first year reporting under the new IFRS 17 accounting standard. Foresters reported strong total comprehensive income of \$154.1 million due to solid insurance service results and favorable investment returns.

Surplus³
(CAD billions)

Consolidated surplus was \$2.0 billion at the end of 2023. Our capital ratios remain very strong with a LICAT ratio of 195%, well above the Canadian life insurer average of 136% at December 31, 2023.¹

Notes to the Summary Consolidated Financial Statements

1. Basis of Presentation of the Summary Consolidated Financial Statements

The summary consolidated statement of financial position and summary consolidated statement of comprehensive income (loss) have been summarized from The Independent Order of Foresters ("Foresters Financial") consolidated financial statements, which are prepared in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board to portray in summarized form Foresters Financial's financial position and results of operations. The criteria applied by management in the preparation of these summary consolidated financial statements are as follows:

- the information in the summary consolidated financial statements is in agreement with the related information in the audited consolidated financial statements; and
- summary consolidated statements of changes in equity, cash flows, material accounting policies and other explanatory information have not been presented, as the relevant information can be obtained from the audited consolidated financial statements.

The summary consolidated statement of financial position and summary consolidated statement of comprehensive income (loss) are only a summary of the information in Foresters Financial's consolidated financial statements for the year ended December 31, 2023. They do not contain sufficient information to allow as full an understanding of the results and state of affairs of Foresters Financial as would be provided by the full consolidated financial statements for the year ended December 31, 2023.

The full consolidated financial statements are available at foresters.com under Financial Strength.

2. Implementation of IFRS 17 and IFRS 9

On January 1, 2023 Foresters Financial adopted IFRS 17 "Insurance Contracts" and IFRS 9 "Financial Instruments" effective January 1, 2023 and applied retrospectively. IFRS 17 establishes the principles for the recognition, measurement presentation, and disclosure of insurance contracts. The summary Financial Statement has been adjusted for IFRS 17 for 2022 and presented a third statement of financial position as at January 1, 2022. The comparative period has not been restated for IFRS 9 and differences in the carrying amounts of financial assets and financial liabilities resulting from the adoption of IFRS 9 are recognized in retained earnings as at January 1, 2023. The adoption of IFRS 9 has not had a material impact on Foresters Financial's consolidated financial statements as at January 1, 2023.

For more information including the measurement and classification of opening balances, refer to Note 2 of the 2023 annual consolidated financial statements.

3. Basis of measurement

Foresters Financial's consolidated financial statements have been prepared on the historical cost basis except for the following material items in the statement of financial position:

- Financial assets at fair value through profit or loss, fair value through OCI financial assets and derivative financial instruments are measured at fair value;
- Employee benefit assets and obligations represent the funded status of these plans which is calculated as the difference between plan assets at fair value and the present value of defined benefit obligations;
- Insurance and reinsurance contracts held are calculated using current value as prescribed by IFRS 17. This method involves the projection of future events in order to determine the amount of assets that must be set aside currently to provide for all future obligations and involves a significant amount of judgment including the assumptions that are used for their measurement;

- Land and buildings are measured at fair value; and
- Goodwill is initially measured as the excess of the purchase price of an acquisition of a subsidiary over the fair value of net identifiable assets acquired. After initial recognition, goodwill is carried at cost less any accumulated impairment losses, which are assessed annually. The initial cost of intangible assets acquired in a business combination is fair value at the date of acquisition. After the date of acquisition, these intangibles are carried at cost less accumulated amortization and impairment losses, which are tested when indicators are present and annually for indefinite life intangibles.

4. Foreign Currency

The functional currencies of the foreign subsidiaries and branch operations have been translated into Canadian dollars. All assets and liabilities are translated at the closing exchange rate at the balance sheet date, and the income and expenses are translated using the average exchange rate for the year. The accumulated gains or losses arising from translation are presented separately in the currency translation accounts, a separate component of accumulated other comprehensive income ("AOCI").
