Forester Life Shariah Savings & Investment Plan

Foresters (Schroders) Managed Islamic Global Fund

Forester Life Limited (Forester Life)

Visit foresters.com or call us on 0333 600 0333 for more information.

Forester Life Limited is authorised by the Prudential Regulation Authority and regulated by the Financial Conduct Authority and the Prudential Regulation Authority.

This document was last updated on 25th September 2024.

What is this product?

Type: The Forester Life Shariah Savings & Investment Plan is a unit-linked insurance based investment Plan. It is a Stocks and Shares product and the payments you make (contributions) are invested into buying units in the Foresters (Schroders) Managed Islamic Global 2 Fund. The unit price is valued at the end of each day and will depend on the value of the investments of the Foresters (Schroders) Managed Islamic Global 2 Fund less charges. The amount you get when you withdraw your investment is calculated by multiplying the total units you have bought by the unit price. After 10 years your units are switched to the Foresters (Schroders) Managed Islamic 2A Fund which is an identical fund but with lower ongoing costs (1% instead of 1.5%).

Objective: The objective is to achieve medium to long-term capital growth by investing in a diversified range of assets and markets worldwide, while complying with of Shariah Investment Guidelines.

The Foresters (Schroders) Managed Islamic Global Funds are linked to the Schroder Islamic Global Equity Fund (the Fund) which invests its assets in shares and share related securities of Shariah compliant companies worldwide. The Fund will only invest in companies listed on the Dow Jones Islamic Market World (Net Total Return) Index. The Shariah Supervisory Board and the Shariah Adviser have been appointed to ensure compliance of the investments in the Fund with the Shariah Investment Guidelines. Some investments will therefore be prohibited and this may mean that the Fund may perform less well than other funds that do not seek to strictly adhere to these criteria. The Fund may hold cash but will not use derivatives.

Intended retail investor: This describes the typical investors we consider will be suitable for the product and therefore who we have determined to be our target market. These are mid-market individuals looking to build or maintain financial resilience but want to invest in shares of companies compliant with the Shariah Investment Guidelines. The product is designed for investors who are over 16, who have a lump sum or who wish to invest outside of the Individual Savings Account (ISA) or Junior ISA annual allowance. The investor is prepared to accept risk to their money. Our Savings & Investment Plan is not necessarily suitable for those who have complex investment needs.

The Fund is professionally managed, so investment decisions are made for you, so you do not have to be an experienced investor or have knowledge of investing.

In the event of the Planholder's death (the second death where the Savings & Investment Plan is held on a joint life basis), we will pay 101% of the Plan value. There is no maturity date for the Savings & Investment Plan. We reserve the right to close a Savings & Investment Plan if contributions have stopped and the Plan is worth under £1,750. We will give you 30 days written notice if we intend to exercise this right.

What are the risks and what could I get in return?

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as a 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity of Forester Life to pay you. This product does not include any protection from future market performance so you could lose some or all of your investment.

! The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

Investment Performance Information

The Fund is actively managed, however, there can be no guarantee that the Fund will achieve its return objective. Share securities fluctuate in value in response to many factors, including the activities and financial situation of individual companies, and the condition of the business and economic environment in which they operate. There is a risk that stock markets overall will decline. The success of the Fund's activities will be affected by general economic and market conditions, such as tax rates, inflation rates, economic uncertainty, changes in laws, trade barriers, currency exchange controls and national and international political circumstances. These factors may affect the level and volatility of the prices and the liquidity of the Fund's investments. Volatility or illiquidity could also impair the Fund's profitability or result in losses.

The most relevant benchmark for measuring the Fund's performance (before charges are deducted) is the Dow Jones Islamic Market World Index. This index was chosen as the benchmark for the Fund due to its screening for companies that adhere to Shariah investment guidelines. The index has approximately 3,500 constituents, making it one of the broadest Shariah equity indices available.

What could affect my return positively?

Higher returns may be generated where global stock markets rise in value. This generally occurs when such markets are stable, interest rates and inflation are low and there are no major interruptions to economic stability such as geopolitical unrest. Such conditions could therefore lead to an investment gain.

What could affect my return negatively?

Lower returns may be generated where global stock markets fall in value. This generally occurs when there is uncertainty in the markets and the demand for equities decreases. Such uncertainty may arise from increases to inflation and interest rates and major interruptions to economic stability such as pandemics and geopolitical unrest. Such conditions could therefore lead to an investment loss.

The Plan does not have a maturity date, however, if the investment is withdrawn during a period of economic instability, there may be an investment loss and the amount paid out could be less than paid in. Where the investment is withdrawn under severely adverse market conditions, for example a significant fall in the value of global stock markets, the investor could suffer a significant loss of the value of the investment. However, the investor can choose when to withdraw the investment at any time.

What happens if Forester Life is unable to pay out?

The Financial Services Compensation Scheme (FSCS) is the UK's compensation fund for customers of authorised financial services firms. Individual customers are covered by the FSCS which means that in the unlikely event that we cannot meet our obligations you will be entitled to make a claim for compensation from the FSCS. Forester Life's insurance and protection Plans, ISAs, Savings & Investment Plans, Pension Plans and all children's savings Plans are fully covered under the FSCS. This means you would be entitled to 100% of the value of your Plan. You can find out more about the FSCS by visiting their website www.fscs.org.uk or by calling 0800 678 1100.

What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest a regular premium of £1,000 per year or a single premium of £10,000. The figures are estimates and may change in the future.

Costs over time

Regular premium paid - Investment £1,000

Scenarios	If you cash in after 1 year	If you cash in after 3 years	If you cash in after 5 years
Total costs	£17.10	£88.30	£235
Impact on return (RIY) per year	1.69%	1.69%	1.69%

Single premium paid - Investment £10,000

Scenarios	If you cash in after 1 year	If you cash in after 3 years	If you cash in after 5 years
Total costs	£171	£532	£917
Impact on return (RIY) per year	1.69%	1.69%	1.69%

Composition of costs

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period, and the meaning of the different cost categories.

This table shows the impact on return per year			
One-off costs	Entry costs	0%	The impact of the costs you pay when entering your investment. The impact of the costs already include in the price. This includes the cost of distribution of your product.
	Exit costs	0%	The impact of the costs of exiting your investment.
Ongoing costs	Portfolio transaction costs	0.19%	The impact of the costs of us buying and selling underlying investments for the product.
	Other ongoing costs	1.50%*	The impact of the costs that we take each year for managing your investments and the cost presented in the tables above.

*This is the annual management charge

How long should I hold it and can I take money out early? Recommended holding period: 5 years

Once we have received your application we will use the Plan Documents, which includes a cancellation notice. You will have 30 days from receipt of the cancellation notice in which you can change your mind.

The recommended holding period for a Shariah Savings & Investment Plan is at least five years to even out the short-term volatility of the investment and to allow the potential to grown in value. A Savings & Investment Plan can be withdrawn fully or partially at any time. There are no exit costs, or penalties made for partially or fully withdrawing your Savings & Investment Plan although the amount you receive may be subject to tax.

To withdraw a Savings & Investment Plan you should provide written notification (by post, fax or email). Payments can only be made to the Planholder(s) and to an account held in their name. Early withdrawals increase the risk of getting back less than has been invested.

How can I complain?

If you are unhappy with any aspect of the service provided by us, please write to the Customer Relations Officer, Forester Life, Foresters House, 2 Cromwell Avenue, Bromley BR2 9BF. You can view Forester Life Complaints Report and our complaints procedure at foresters.com/contact-us/complaints or phone 0333 600 0333 for a copy.

If we do not deal with your complaint to your satisfaction, you can complain to: The Financial Ombudsman Service (FOS), Exchange Tower, London E14 9SR (telephone 0300 123 9123, email complaint.info@financial-ombudsman.org.uk or visit www.financial-ombudsman.org.uk). Making a complaint will not prejudice your right to take legal action.
