Choose our Shariah Junior ISA

Shariah Stocks and Shares Junior ISA

What is a Stocks and Shares Junior ISA?

A Junior ISA is a savings account introduced by the Government, that allows you to save tax-efficiently for your child, who has access to the money at age 18.

A Stocks and Shares Junior ISA allows you to invest your money into stocks, shares and other assets. This gives you greater potential to grow your child's savings, compared to saving in a bank account where inflation could rise above the interest gained.

How much can I save?

You can save up to £9,000 each tax year. This limit is set by the Government, and does not count towards your own ISA savings limit as a parent.

Who is the Planholder?

The Planholder is the child who owns the Junior ISA. At age 16 a child who does not already have a Junior ISA or Child Trust Fund can open a Junior ISA for themselves.

Who is the Registered Contact?

A parent or someone with parental responsibility who can open the Junior ISA and become the Registered Contact, there can only be one Registered Contact per Plan. This person manages the Junior ISA on behalf of the child. You are responsible for managing the Plan so you should keep all of the Plan information safe, report changes such as change of address and be the only person who can change the Plan or provider.

At age 16, a child whose Junior ISA was opened by a person with parental responsibility can become the Registered Contact and manage their own Plan if they wish to.

Can my child have multiple Junior ISAs?

There are two different types of Junior ISAs available, cash and stocks and shares; and you can save in one or a combination of the two if your child is eligible.

Of course, if your child already has a Cash or Stocks and Shares Junior ISA, or a Child Trust Fund with another provider you may want to consider transferring to our Stocks and Shares Shariah Junior ISA. We do not charge for any transfer.

How much could their Shariah Junior ISA be worth?

The figures below give you an idea of how much your contributions could be worth when your child reaches age 18. They assume an annual investment growth rate of 2% (low), 5% (medium) and 8% (high), and an annual management charge of 1.5% (1% after 10 years).

How we calculate these figures

- The figures give you an idea of what monthly contributions could be worth in years to come assuming an annual management charge of 1.5% (1% after 10 years) and the following:
 - For a projected annual investment growth of 2%, we have assumed that your monthly contribution will increase annually by 2.5%.
 - For a projected annual investment growth of 5%, we have assumed that your monthly contribution will increase annually by 3%.
 - For a projected annual investment growth of 8%, we have assumed that your monthly contribution will increase annually by 5%.
- The figures are only illustrative and not guaranteed. What your child may get back could be less or more, this is dependent on the funds performance and tax treatment of the investment.
- Inflation could reduce what you could buy in the future.
- Every year you will receive a statement showing the value of the Junior ISA, however you can see this at any time on MyPlans.
- Charges may vary in the future.
- All payments are locked into the Plan until the child's 18th birthday and cannot be reclaimed by the gifter(s).

What happens at age 18?

Although it may be a long way off, it is good to know what will happen when your child reaches 18 - [go to page 7](#).

How can I contribute to the Junior ISA?

Contributions start from:

- £10 for monthly contributions (Direct Debit or standing order).
- £20 for single contributions (direct from your bank, cheque or debit card payments online or by phone).

You can amend existing Direct Debits at any time. The minimum increase, or decrease amount is £5, and the Direct Debit cannot be less than £10.

Can family and friends contribute too?

Yes, family and friends can contribute to your child's Junior ISA. As long as this does not exceed the yearly limit. Making it a great option for a financial gift, all they need is the Plan number.

They can also create their own MyPlans account to see their payments into the Junior ISA. All contributions to the Junior ISA are considered a gift and cannot be returned to the gifter. Visit foresters.com/gift for more information.

How does inflation affect savings?

You may notice the effects of inflation on things like your groceries, but did you know this can also impact savings?

We want to ensure that when your child accesses their money in the future it keeps up to date with inflation. So, we will automatically increase your monthly contributions to follow RPI (Retail Price Index), subject to a minimum of 2.5%.

We will write to you before making any increases. If you do not wish to keep up with inflation, please let us know 14 days before the increase is due.

When can my child access the money?

Savings are locked in until the Planholder turns 18. Only the Planholder can access the money on their 18th birthday. For more information see page 7.

What are the charges?

There is only one annual management charge of 1.5%, reducing to 1% after the Junior ISA has been with us for 10 years. To benefit from the reduced charge the money will invest in an identical fund, that has the lower charge.

This annual management charge takes into account our distribution, administration and investment management costs.

The funds have transactional charges for the buying and selling of investments, this is not a direct charge to you. Please see the Key Information Document.

These charges are calculated daily and reflected in the unit price, this means that you will not see a charge applied directly to the Plan value.

Will my child pay tax on the growth?

Your child will not have to pay any UK Income Tax or Capital Gains Tax when they access the money at age 18.

If there is a payout due to death, this may be subject to inheritance tax. Tax treatment depends on individual circumstances and may be subject to change in the future.

Can I transfer a Junior ISA or CTF?

Yes, if you want to transfer to us we accept transfers from:

- ✓ Cash Junior ISAs - partial or full transfers available.
- ✓ Stocks and Shares Junior ISAs - full transfers only.
- ✓ Child Trust Funds (CTFs) - full transfers only.

Once a CTF has been transferred to a Junior ISA it cannot be transferred back. If you are transferring from a Cash Junior ISA or Cash CTF you should note that there will now be some risk to the investment because you will be investing in stocks and shares.

You are entitled to transfer between providers, at no charge from us. We do not give any advice on transfers.

Make a difference with a one-off gift contribution

Anyone can contribute to your child's Shariah Junior ISA making it a great gift for birthdays or any other special occasion. The figures below give you an idea of how much a single (one-off) contribution could be worth when your child reaches age 18. They assume an annual investment growth rate of 2% (low), 5% (medium) and 8% (high), and an annual management charge of 1.5% (1% after 10 years).

Please read the "How we calculate these figures" on page 4.

A Shariah compliant fund

Who makes the investment decisions?

Foresters specially selected Schroders to look after your money and make investment decisions for you alongside, a Shariah Supervisory Board and Shariah Adviser.

Schroders is an independent, dedicated asset manager with a strong heritage and culture based on over 200 years' experience of investment markets.

Schroders have thousands of experts around the globe looking for investment potential, wherever it may be.

Can I see how the fund is performing?

Yes, you can view the funds performance within your online MyPlans account - foresters.com/MyPlans or see our Investment Bulletins on our website - foresters.com/bulletins

Contributions will be used to purchase units in the Foresters (Schroders) Managed Islamic Global Fund 1. After 10 years the money and future contributions will be invested in the Foresters (Schroders) Managed Islamic Global Fund 1A, this fund has the same investment approach, however it benefits from a lower charge.

Foresters (Schroders) Managed Islamic Global Fund

The fund invests in the Schroder Islamic Global Equity Fund and aims to grow your investment over the medium to long-term by investing in a Shariah compliant portfolio of shares from around the world.

- ✓ Only invests in companies included in the Dow Jones Islamic Market World (Net Total Return) Index.
- ✓ Shariah Supervisory Board and Shariah Adviser to ensure investments meet Shariah Investment Guidelines.
- ✓ Medium investment risk.

The fund may not invest in companies that derive more than 5% of their total income from prohibited activities or industries such as below...

Alcohol and tobacco

Entertainment inc. hotels/gambling

Pork-related products

Non-Islamic financial services

Weapons and defence

Also, any company whose financial arrangements are considered unsuitable for Shariah compliance such as unacceptable amounts of debt, cash or interest bearing securities. As the fund is managed in line with Shariah Investment Guidelines, it may perform less well than other funds that do not strictly adhere to these criteria.

What happens to investments which become non-compliant?

It is the intention to observe the Shariah Investment Guidelines at all times but this may not always be possible as there may be occasions when a company becomes non-compliant.

The requirement to 'purify' prohibited income (and potential investment gains where companies become non-compliant) is likely to result in payments to UK registered charities that have been approved by the Shariah Supervisory Board.

These payments could reduce the fund's performance compared with other funds that do not strictly adhere to the Shariah Investment Guidelines.

As with all stock market investments the value may fall as well as rise and you may get back less than has been invested.

For more information about the fund, please refer to the Key Information Document and Investment Bulletin.

What does this mean for my money?

This fund is professionally managed by Schroders, who will choose and make investment decisions for you. Working with our appointed Shariah Adviser and Supervisory Board to ensure investments follow Shariah guidelines.

The fund invests globally across a range of assets to take advantage of investment opportunities found by Schroders. As the fund invests in a range of assets, rather than one (such as stocks), this helps reduce the risk of your investment.

Junior ISAs at age 18

Helping prepare both you and your child for future decisions.

What happens before age 18

At age 15 your child can create their own MyPlans account to view their savings and access a range of resources to learn more about ISAs and investing. Giving your child money confidence from a young age.

At least a month before the Planholder reaches 18 we will write to them providing the details of the options available on their 18th birthday.

What happens at age 18

At age 18 their Shariah Junior ISA will mature and automatically roll into a Shariah Adult ISA in their name. At this point, the child will be the only person with control over the Plan and any contributions will be stopped.

Your child will have the option to continue saving in their Adult Shariah ISA where they can make contributions, withdrawals, and add a Shariah Lifetime ISA, or withdraw the full amount and close their Shariah ISA with us.

Until they make this decision, the ISA will continue to invest in the same fund as before, with the same charges.

Can my child manage their adult ISA online?

All your child will need to do is activate their online MyPlans account to view their Shariah ISA, make contributions and/or withdraw the money.

Make sure they have their National Insurance number or Plan number (which can be found on any letters we have sent), their own email address and a bank account in their name.

How can you support them at age 18?

Investing can help make a difference in the future, so if your child wants to save for their first home or any other future goals, continuing to save after their 18th birthday may be a good option.

Find out how you can support your child with their money at age 18.

Tax-efficient	<i>Is when you pay the least amount of tax required. When it comes to a Junior ISA or ISA, the savings are tax-efficient, which means there is no need to pay UK Income and Capital Gains taxes when money is withdrawn from the Plan.</i>

Before we change the *Registered Contact*, we will require certain information and declarations. We will not change the *Registered Contact* unless the information and declarations have been provided to us. The declarations may include the consent of the existing *Registered Contact*.

Notwithstanding the previous paragraph, if the *child* is the *Registered Contact*, then the *Registered Contact* cannot be changed.

The *child* will be contacted prior to their 18th birthday to notify them that their *Plan* will automatically convert into an adult ISA if the monies are not withdrawn.

Optional Changes to Regular Contributions

Any *contributor* may increase or decrease their regular *contributions* at any time subject to a minimum increase of £5. Regular *contributions* may not be reduced below the minimum of £10.

Any *contributor* may stop their regular *contributions* at any time. If regular *contributions* have stopped, they may be restarted at any time subject to any conditions or restrictions we may apply.

Automatic Increases to Regular Contributions

Regular *contributions* paid by Direct Debit will increase automatically on the anniversary of their commencement. The increase will be equal to the proportion by which the Retail Prices Index for the month six months before the month in which the anniversary falls exceeds the Index for the month 18 months before the month in which the anniversary falls, subject to a minimum increase of 2.5%. The increase will be applied to the regular *contribution* payable immediately preceding the anniversary, allowing for any *contribution* changes attributable to Optional Changes.

If the Retail Prices Index is replaced or discontinued, we will decide which other suitable Index we should use for calculating Automatic Increases. Automatic Increases will be reduced or cancelled if *ISA regulations* prevent an Automatic Increase from being made in full.

If a *contributor* has made Optional Changes to their regular *contributions* within the 12 months preceding its anniversary, then we may, at our discretion, postpone the Automatic Increase by up to 12 months from the Optional Change. Future Automatic Increases will then occur at 12-month intervals, subject to any further postponement from future Optional Changes.

If any *contributor* asks us to do so, we will stop their future Automatic Increases, subject to 14 days' written notice. The *contributor* may request that they recommence at any time, subject to 14 days' notice. The recommencement will not take account of any Automatic Increases that would have been made previously but for their earlier cessation.

Investment of Contributions

Contributions will be invested in the *Fund(s)* selected for your *Plan*. The investment objectives of the *Fund(s)* are set out in our Key Information Document(s). Subject to meeting the Shariah Investment Guidelines, we have discretion as to how the assets of each *Fund* are invested. Any income arising from the assets of a *Fund* will be added to the *Fund*.

Each *Fund* is divided into units of equal value. We will increase or reduce the number of units into which a *Fund* is divided at our discretion, in which case we will transfer in to or out of the *Fund* an amount of money so that the value of each unit is unaffected.

We will value each *Fund* each business day based on the closing prices of the assets for that day, or such other time as we may decide. We will calculate the value of the assets in each *Fund* on a fair and reasonable basis.

We will calculate the value of a unit of each *Fund* at a valuation by dividing the total value of the *Fund* calculated at that day's valuation by the total number of units of the *Fund* existing at that time. We will then set a price for a unit of the *Fund* for the purpose of allocating units to *Plans* and computing the benefits under *Plans* that are linked to the *Fund*. It will be equal to the value of a unit of the *Fund* rounded to the nearest one-tenth of a penny. Unit prices set at a valuation will be effective for unit transactions on that day.

We may open new *Funds* from time to time or close or combine existing *Funds* if we think this is appropriate. Where we close or combine *Funds*, we will redirect future *contributions* and/or *Fund Switch* existing units, as we decide are appropriate, using the unit prices on the effective date.

Allocation of Units to Your Plan

For each *contribution* or transfer payment received, we will allocate to the *Plan* units of the *Fund(s)* using the unit price or prices effective on the day we receive the payment. The total value of the units we allocate at those prices will be equal to the payment received.

The number of units of a *Fund* allocated in respect of each payment, and each *Fund Switch*, will be rounded to the nearest 1/1000th of a unit.

Charges

There is a maximum annual management charge of 1.5% of the value of the *Fund(s)*. This charge reduces to 1.0% or less, 10 years after the *Start Date*. A proportion of the annual charge is deducted directly from the *Fund(s)* at each valuation, based on the number of days since the last valuation and is reflected in the unit prices.

In addition to the annual management charge the unit prices are affected by portfolio transaction costs incurred directly or indirectly in the sale or purchase of investments held in the *Fund(s)*.

Ownership

The investments of the *Plan* are, and will remain, in the beneficial ownership of the *child* and must not be used as security for a loan. The title to the *Plan* is vested in the *Registered Contact*. The *Schedule* showing title to the *Plan* shall be held by the *Registered Contact*.

The *Plan* may only be owned or held as a qualifying investment for a Stocks and Shares *Junior ISA*. The *Plan*, or the rights conferred by the *Plan* or any share or interest in the *Plan* or rights respectively, other than the cash proceeds from termination or part encashment of the rights conferred, including full or part encashment following the acceptance of a terminal illness claim, cannot be transferred to *you* or the *child*.

The *Plan*, the rights conferred by the *Plan* and any share or interest in the *Plan* or rights respectively, are not capable of assignment or assignation (other than that the *Plan* may be transferred to another *Junior ISA* manager in accordance with the *ISA Regulations* or title to the *Plan* may be transferred to a new *Registered Contact*) and the rights may vest in the personal representatives of the *child*.

Annual Statements

We will prepare and send to *you*, at least annually, a statement including a valuation of your *Plan* and the amount of all *contributions* made since the previous statement date.

Transfers

On receipt of your written instructions, within any time period you have stipulated (but not less than 10 business days after receipt of your instructions) and subject to the *ISA Regulations*, we will transfer some or all of the *unit account value* of your *Junior ISA* with all rights and obligations to another *Junior ISA* manager. We do not make any charge for the transfer.

Before the transfer can take place, we will require written authority from the new manager. We will issue you with a Statement of your *Plan* at the date of transfer. Transfer of the entire *unit account value* will release us from all of our obligations under the *Plan*.

You may transfer the amount of a *Junior ISA* or a Child Trust Fund (CTF) account held with another Account Manager to us, which we will manage under these Terms and Conditions. We can accept transfers from Stocks and Shares Accounts and/or Cash Accounts, into this *Plan*. The transfer must be made in a manner acceptable to us.

Junior ISA Benefits

Withdrawal

At any time after the *child's* 18th birthday and on receipt of their written instructions, they may withdraw some or all of the investment. We will pay them all or a portion of the *unit account value* effective on the later of the date they select and the day we receive their request.

We will cancel a number of units of the *unit account* equal in value to the amount payable. If units of more than one *Fund* remain allocated to the *Plan* immediately prior to the withdrawal, we will cancel units of each of those *Funds* equal in proportion to the value of the units of each *Fund*. The number of units of a *Fund* cancelled in respect of the withdrawal will be rounded up to the nearer 1/1000th of a unit.

Rollover

If the *child* does not withdraw the full value of the investment on their 18th birthday it will automatically rollover into an Adult Stocks and Shares ISA, in accordance with the *ISA Regulations*.

Death Benefit

In the event of the *child's* death, we will pay 101% of the *unit account value* effective on the day of death. Payment will be made to the *child's* legal personal representatives after we receive evidence satisfactory to us of the *child's* death.

Terminal Illness Benefit

If we are advised by HMRC that a terminal illness claim has been agreed, then on receipt of *your* written instructions *you* can withdraw some or all of the investment. We will pay *you* all or a portion of the *unit account value* effective on the later of the date *you* select and the day we receive *your* request.

All Benefits

Before we make any payment, we will require evidence satisfactory to us of the entitlement to the benefits of the person or persons claiming payment. All payments are due in the currency of England at our registered office. Payment of the entire *unit account value* will release us from all of our obligations under the *Plan*.

Termination

Your Plan will be managed in accordance with the *ISA Regulations*. We will inform *you* if, by reason of any failure to satisfy the provisions of the *ISA Regulations*, *your Plan* has, or will, become void.
